DETAILED ACTION

Response to Arguments

1. In view of arguments presented by Applicant in the communication filed on June 06, 2005, the finality of the previous Office Action is hereby withdrawn and prosecution reopened. Claims 18-25 are now considered by the Examiner since they are drawn to the originally elected Invention I.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Hill on June 17, 2005.

The application has been amended as follows:

Claims 5-9, 14-17, 30, 32-34, 39-42 have been canceled.

Examiner's Statement of Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance: Claims 18 and 22 are allowed because the prior art does not teach a method for detecting wear in liner comprising measuring the electrical resistance in the wire thermocouple to determine whether the wire has worn through; and monitoring the temperature measured by the wire thermocouple over time to estimate the wear in the liner, in combination with the remaining limitations of claims 19-21 and 23-25 respectively.

Art Unit: 2859

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
